THE PEOPLE'S CANVASS.

GROWTH OF THE TRIBUNE.

THE LOYALTY OF THE REPUBLICAN PARTY SHOWN BY THE GREAT INCREASE IN CIRCULATION OF THE TRIBUNE.

Last Monday a number of remarkable letters from different parts of the country were printed in THE TRIBUNE, referring to the great and steady increase in circulation of this paper. Among them was a To the Editor of the Tribune: letter from George I. Tyson, one of the most favorably known dealers, who manages the stands at a large number of the leading hotels in this city, including the Fifth Avenue, Metropolitan and Windsor, and who also has a words at the India. Windsor, and who also has stands at the United States and Grand Union hotels in Saratoga. Mr. Tyson stated that the sale of THE TEIDUNE has more than doubled at all of his hotels in the last two months. There were also letters from Stephen Richardson, president of the Newsdealers' Central Council of this city, and from various friends and leading and well-informed dealers in cities surrounding New-York, all testifying to similar great advances made by The Tabburg and to a heavy loss of circulation by the New York Times. To-day, another and equally important set of letters is presented, largely from New-York City and Brooklyn newsdealers. These letters are chosen from a very large number on our table, all of them being of the same general tenor; and they help to prove that the large gain in circulation by The Tabburg has not taken place in spots, here and there, but is general. It is doubtful, in fact, if there is a newsdealer anywhere within the range of The Dally Tabburg, that can-within the range of The Dally Tabburg, the range of The Dally Tabburg, the range of The Tabburg, and the very forty cooles per week. The can-with was 434 copies per week. The care asked and uring August it was 434 copies per week. The circulation has gradually increased, and during August it was 434 copies per week. future occasion you may hear more from me about it.

We are compelled to make a schedule of prices upon some of the papers we deliver. Not so with The Tairn's. It has always dealt liberally with its and we have no cause for complaint against it, whatever. It pays to be generous, especially to a hard working class of people, like the newsdealers; and the day is not far distant when we shall have a day of reckoning with the papers who hook away our margin of profit or are affidiated with The New-York Herald.

I comit say agood deal more, but feet that I have already trespassed too much upon your valuable page.
